

KHAVISH AUCKALOO

Software Developer · BSc (Hons) Information Technology Student

Vacoas, Mauritius · a.khavish.personal@gmail.com · github.com/a-khavish

PROFILE

Developer and first-year BSc (Hons) Information Technology student at Curtin Mauritius, with five open-source projects published on GitHub, alongside two years of professional experience in hospitality e-commerce and reservations across two five-star resorts. Technical work spans desktop applications in Python and PyQt5, a Vue 3 front end on a Flask backend, offline speech recognition and computer vision, applied cryptography, and Linux system programming. Commercial experience covers OTA distribution, rate parity management and reservation systems. Open to roles in software development, IT support, or e-commerce and revenue operations.

PROJECTS

All public at github.com/a-khavish. Each repository includes documentation, tests and continuous integration.

Quietude

Python · Flask · Vue 3 · Electron · OpenCV

A voice assistant for Linux that runs entirely offline. Two speech models work together: a small streaming one listening continuously for a wake phrase, and a quantized Whisper that transcribes accurately once woken. Replies are synthesised locally through ONNX voice models, and login uses a face classifier trained on the user's own machine. Flask backend, Vue 3 interface, Electron shell.

Quenchkey

Python · PyQt5 · cryptography

Encrypted file vaults that expire on rules the sender sets, issuing a signed destruction certificate afterwards. Argon2id, ChaCha20-Poly1305, AES-256-GCM and SLIP-39 recovery shares. Covered by 617 tests.

Camaloop

Python · PyQt5 · OpenCV · Video4Linux

Applies live effects to a webcam feed and republishes it as a virtual camera that browsers and video-call software can select. Drives the Video4Linux kernel interface directly. 32 effects, 219 tests.

venvyard

Python · CLI · Bash

One command to create, find, inspect, repair and prune every Python virtual environment on a machine. No third-party dependencies.

stegtexthider

Python · cryptography

A library and CLI that hides a password-encrypted message inside ordinary text using invisible Unicode characters.

TECHNICAL SKILLS

Web development Full sites built by hand, design through deployment · Vue 3 single-page applications · Flask backends · semantic HTML and modern CSS (grid, flexbox, fluid type) · responsive and accessible · Canvas animation · static hosting and CI

Languages Python · JavaScript · HTML · CSS · Bash

Studying at Curtin Java · C · C++ · PHP

Frameworks & libraries Vue 3 · Vite · Pinia · Flask · PyQt5 · Electron · OpenCV · NumPy · pytest

Speech, vision & AI Vosk and faster-whisper (offline speech recognition) · Piper ONNX voice synthesis · OpenCV Haar cascade detection with LBPH face recognition · Google Gemini API integration

Tools & systems Git · GitHub Actions · Linux (Ubuntu) · Video4Linux · Python packaging · applied cryptography (Argon2id, ChaCha20-Poly1305, AES-256-GCM, Ed25519, SLIP-39)

Professional Clear written and verbal communication · Cross-department coordination · Accuracy under pressure · Problem solving · Adaptable and quick to learn

EDUCATION

Curtin Mauritius

Feb 2026 – Nov 2029

- BSc (Hons) Information Technology. Currently in first year.

Sir Abdool Raman Osman State College

2021 – 2024

- Two A-Level subjects, pass (June 2024).
- Higher School Certificate (HSC), pass (November 2023).
- School Certificate (SC), pass (June 2021).

PROFESSIONAL EXPERIENCE

E-Commerce Coordinator • Revenue

Jun 2025 – Nov 2025

Mauriplage Investment Ltd (Sands Suites Resort & Spa) and Dhyonavartam Ltd (Maradiva Villas Resort & Spa)

- Managed online distribution for two five-star properties across all OTA channels, maintaining accurate rates, inventory and availability.
- Carried out routine rate parity audits across partner channels and escalated discrepancies for correction.
- Updated channel content, imagery and property descriptions to keep listings consistent with brand standards.
- Monitored performance of online sales channels and reported findings to support revenue and pricing decisions.
- Supported the wider digital strategy through system updates and day-to-day coordination with distribution partners.

Reservations Officer • Reservations

Jun 2024 – Jun 2025

Mauriplage Investment Ltd (Sands Suites Resort & Spa) and Dhyonavartam Ltd (Maradiva Villas Resort & Spa)

- Processed reservations received by telephone, email and online systems, ensuring accuracy and prompt response times.
- Maintained live room availability and handled cancellations, amendments and rebookings within the hospitality management system.
- Resolved guest enquiries and special requests, coordinating with front office, housekeeping and food and beverage.
- Promoted resort packages and seasonal offers, contributing to direct booking revenue.
- Produced occupancy and booking reports used for forecasting and operational planning.
- Applied internal procedures and industry regulations consistently across all bookings.

Trainee Reservations Officer • Reservations

Nov 2023 – Jan 2024

Mauriplage Investment Ltd (Sands Suites Resort & Spa) and Dhyonavartam Ltd (Maradiva Villas Resort & Spa)

- Supported the reservations team in daily operations through a peak season.
- Handled routine bookings and guest correspondence under supervision.
- Managed inbound calls and email responses, gaining early exposure to resort reservation systems.

CERTIFICATIONS & TRAINING

- **Advanced Networking (Cisco CCNA curriculum)**, IT Academy Institution (Jul 2025 – Jan 2026)
- **Computer Maintenance & Repair**, Venyleos Training Centre (Sep 2025 – Dec 2025)
- **Digital Proficiency**
- **Hospitality Management System: Reservation Refresher I & II**, OBI Software Ltd
- **Upselling & Cross-Selling Techniques**, Escoffier Institute Ltd
